These lights, in range, guide across the bar, in best water; bar constantly changes; outer bar buoy is in range with inner bar buoy and both lights; the beacon is moved as the channel changes. This station is on the north end of Plum Island, and on the south side of entrance to the Merrimac River, Mass. (Strangers should not attempt to enter.)

Newburyport Upper Harbor; two lights (beacons); outer beacon, black tower, fixed red light, visible 10 mls.; inner beacon, red tower, fixed green light, visible 12 m.; both on Bailey's wharf, and to be left on port side passing up the harbor.

Ipswich Lights; on Castle Neck, south side of entrance to Ipswich River; a main light, with a range light in front; main light fixed, white, varied by flashes, visible 11 miles, flashing once in $1\frac{1}{2}$ minutes, shown from a white tower; range light, fixed, white, visible 8 miles, shown from a black tower; the lights are 625 feet apart, N E $\frac{1}{2}$ E and S W $\frac{1}{2}$ W; in range, they guide to entrance of channel across Ipswich Bar in the best water, which at present is but 6 feet at low water.

Annisquam Light; white tower; fixed white light, visible 13 miles; a harbor of refuge for small vessels; on Wigwam Point, east side of entrance to Annisquam harbor; 6 feet of water on Squam Bar at low tide. To cross the bar, bring the light to bear south and run for it, leaving it on the port side; then run for the Lobster Rock Beacon, and leave it on the port side also.

Straitmouth Island; on south side of Sandy Bay, entrance to Rockport harbor; white tower; fixed white light, visible 11 miles; to be left on port hand in going to Rockport. Bad ledges lie off this light. Strangers should keep

the north shore of Sandy Bay best aboard on entering Rockport; shelter only for a few small vessels.

Cape Ann Lights; latitude $42^{\circ} 38' 15''$ N; longitude $70^{\circ} 34' 30''$ W; two grey granite towers, 165 feet above sea level; fixed white light, visible 20 miles; the lights are 900 feet apart, in range at S S W and N N E; located on Thatcher's Island off Cape Ann, and the northern limit of Massachusetts Bay; to be left on the starboard hand in going towards Boston. Bearings—Isle of Shoals bears N, 17 miles; Boon Island N N E, 30 miles; Gloucester Light S W by W $\frac{1}{2}$ W, 6 miles; Long Island Light S W by W, 24 miles; Cape Cod Highland Light S by E $\frac{1}{4}$ E, 43 m.; Londoner Ledge S E by E, $\frac{1}{2}$ m. Salvage Ledge N N E, 2 m. Also, a 10 inch steam whistle, giving each minute a blast of 8 sec. and a blast of 4 sec., with alternate intervals of 4 and 44 sec.

Gloucester Light, on Eastern Point; on east side of entrance to Gloucester harbor; white tower; a revolving red light, showing once every 5 seconds, visible 9 miles. When coming from the Eastward, bound into Gloucester harbor, give the light a good berth to clear Eastern Point Ledge (spar buoy); then, when the light bears N E $\frac{1}{4}$ N, run N W $\frac{1}{2}$ N until the upper harbor light bears N E by N $\frac{1}{2}$ N, then run for it, and anchor $\frac{1}{2}$ mile S by W from the light. Also, a bell on Eastern Pt., alternately giving a double and single blow, then an interval of 30 seconds, then a single blow followed by an interval of 30 seconds.

Gloucester Harbor Light, on Ten Pound Island, east side of entrance to inner harbor; white tower; fixed white light of sixth order, varied by a white flash every 5 seconds; visible 11 miles; to enter harbor, bring this light to bear N E by N $\frac{1}{2}$ N, and run for it until Eastern Point Light bears S S E, and anchor in channel way or continue until Eastern Point light bears S, then steer E N E until Ten Pound Island light bears N, and anchor in S E harbor, in from 4 to 6 fathoms—hard mud; or, from this point steer about N W by N between Ten Pound Island Ledge buoy and Ten Pound Island (giving the point of the Island a good berth), until the light bears E, then steer N $\frac{1}{2}$ E until the light bears S by E, and anchor in western harbor.

Automatic Buoy; a whistling buoy is moored $\frac{3}{4}$ of a mile, S by W from Eastern Point Light, permanently kept.

Baker's Island Lights; latitude $42^{\circ} 32' 10''$ N; longitude $70^{\circ} 47' 10''$ W; two white towers, ranging S E and N W; fixed white light, visible 15 miles; located on the north end of Baker's Island, south side of entrance to Salem and Beverly harbors. In coming from the southward vessels bound to Salem keep the lowest light open to the east of the high light, and run for it; this guides to the eastward of the South-east Breakers and Searl's Rock. Give Baker's Island a berth of not less than half a mile, leaving it on the port hand, then run for Hospital Point Light, bearing about W by N $\frac{1}{2}$ N, until Derby Wharf light is in range with Fort Pickering light, when Salem harbor will be to the W S W of you, and Beverly harbor W by N $\frac{1}{2}$ N. Also, on Baker's Island a bell which strikes two quick blows each half minute. For better information, a lens panel has been placed in "Hospital Point" Light, which makes a more brilliant light in the line of the ships' channel from Baker's Island than on either side, and serves to keep vessels from danger on either side.

Hospital Point; grey tower; fixed white light, visible 13 miles; on Hospital Point, north side of entrance to Salem and Beverly Harbor.

Fort Pickering Light; red tower; fixed white light, visible 10 miles; on Winter Island, north side of entrance to Salem harbor. On entering Salem harbor from near Hospital Point, get Derby Wharf light in range with Fort

Pickering light to clear the Haste Shoal; good anchorage half a mile S W by S from this light, with Derby Wharf light bearing W by S.

Derby Wharf Light; on the end of Derby Wharf, Salem upper harbor; red tower, fixed red light, visible 9 miles.

Marblehead Light, on Marblehead Neck, south side of entrance to Marblehead, and to Salem South Channel; white tower; fixed white light, visible 11 miles; good anchorage half a mile W by S from this light. To enter harbor, bring the light to bear N W, and run for it until within two miles of it, then bring it to bear W N W, and run for it, leaving Marblehead Rock (a high rocky Islet with beacon at top) 150 yards on your port hand, and when it bears S W run N W $\frac{1}{4}$ N until the light bears S by W, then run S W $\frac{1}{4}$ W into the harbor, and anchor between the light and the town.

Egg Rock Light; white tower; fixed red light, visible 12 miles; guide to Swampscot anchorage and to Broad Sound. Leave it $1\frac{1}{2}$ miles on the starboard hand on entering Broad Sound.

Minot's Ledge Light; latitude $42^{\circ} 16m 9s$ N; longitude $70^{\circ} 45m 34s$ W; entrance to Boston Bay; granite tower, natural color, 100 feet high; fixed white light, visible 17 miles. Davis' Ledge Buoy bears E by S; Boston light bears N W $\frac{1}{2}$ W, 7 miles. This course must be kept good, northerly, to pass Bell Boat, off the north side of the Harding's Ledge (about $4\frac{1}{2}$ miles from Minot's Ledge Light). A good mark to clear the Harding's Bell Boat, after passing Minot's light, is to keep Long Island Head light (fixed white) just open to the north of the Narrows Light, which is a red light.

Boston Light; latitude $24^{\circ} 19m 39s$ N; longitude $70^{\circ} 53m 25s$ W; on Little Brewster Island, north side of entrance to main ship channel to Boston; white tower; white flash light, flashing once every half minute, visible 17 miles. Also, an air trumpet, giving blasts of 7 seconds, followed by interval of 43 seconds. From Cape Cod highlands the course for Boston Light is N W by W $\frac{1}{4}$ W, which well clears Minot's Ledge and the Hardings; then, when well past Minot's, bring Boston light to bear W by N $\frac{1}{2}$ N and run for it until within $\frac{1}{2}$ of a mile of it or until the Beacon light bears about W by N, then run W $\frac{1}{4}$ S until the Beacon light bears W N W, then run W by N leaving the Beacon light 100 yards on your starboard hand, then steer N W $\frac{1}{4}$ W (keeping the middle of the channel) for the Narrows between Galloups and Lovell's Islands, then about N W $\frac{3}{4}$ N for the bell buoy off Nix's Mate, which leave on port hand, then run W by N $\frac{1}{4}$ N for Fort Independence, leaving the lower middle buoy, red can, No. 6, a good berth on your starboard, and State Ledge buoy, red Nun No. 8 close aboard on your starboard; then run about N W $\frac{1}{4}$ N for the upper middle buoy, black Nun No. 9, which leave on your port, then the course to Long Wharf or to good anchorage is about N W $\frac{1}{4}$ W. If making Boston ship channel from Cape Ann, get Thatcher's Island light to bear N N W from 2 to 3 miles, then steer S W $\frac{1}{4}$ W until Boston light bears W by N $\frac{1}{2}$ N. Then proceed as before given.

Narrows Light; brown house; fixed red light, on the right hand side of Narrows, in ship channel entrance to Boston Harbor.

Deer Island Light; on the south extremity of the Spit, making out $\frac{1}{2}$ mile to the southward from Deer Island entrance to Boston Harbor; fixed white, varied by a red flash every 30 seconds; also a bell struck by machinery every 5 seconds in foggy weather. This light was lit January 25th, 1890.

Long Island Light; on the N E end of Long Island and southern side of entrance to Boston inner harbor; white tower; fixed white light, visible 16 miles. In coming up ship channel, and after leaving Nix's Mate buoy on the

RATTAN AND REED ROCKERS, AT

port hand, and Long Island Light bears W by S $\frac{1}{2}$ S, run W by N $\frac{1}{4}$ N for the south end of the Castle until the Castle North Wharf bears N W by W $\frac{3}{4}$ W, or abreast of the State Ledge Buoy (red, No. 8), then N W $\frac{1}{4}$ N to the Upper Middle Buoy (black, No. 9), which leave on port hand, then the course to Long Wharf is N W $\frac{1}{4}$ W. But if approaching Boston from Cape Ann, via Broad Sound, bring Long Island Light to bear S W by W, and run for it until Deer Island Point Beacon bears N W by N $\frac{1}{2}$ N, three-eighths of a mile distant, then W by N $\frac{1}{4}$ N up the harbor. Strangers should bear in mind that in the middle of Broad Sound there is but 8 feet of water at low tide; but by keeping on the southern side of the Sound, leaving the Graves Whistling Buoy $\frac{1}{2}$ a mile on your port hand and the Devil's Limb Buoy (black can No. 1) $\frac{3}{4}$ mile on port hand, and running straight to Ram's Head buoy (black can buoy No. 5) about W S W, passing Aldrich's Ledge buoy (black can No. 3) $\frac{1}{4}$ mile on port, then leaving Ram's head 50 yards distant on port, and run about W $\frac{1}{4}$ S to clear Deer Island Point Beacon, you can carry 12 feet safely. From the Beacon you will steer W $\frac{3}{4}$ N for lower middle buoy, then W by N $\frac{3}{4}$ N for State Ledge Buoy, when proceed as before given.

Explanatory.

Aphelion—The point of a Planet's orbit farthest from the Sun.

Apogee—That part of the Moon's orbit farthest from the Earth.

Astronomical Day is reckoned from noon to noon through the 24 hours. Thus, July 21, 9h, is 9h A of July 21, and July 21, 15h, is 3h M of July 22.

Conjunction—A Planet directly between the Earth and the Sun is said to be in Inferior Conjunction with the Sun. A Planet with the Sun directly between it and the Earth is said to be in Superior Conjunction with the Sun. Planets are said to be in conjunction with each other, or with the Moon, when they are in the same sign and degree.

Declination—The distance of a heavenly body from the Equinoctial, measured north or south, in degrees or minutes, on a Meridian.

Ecliptic—The plane of the Earth's orbit, so called because Eclipses can take place only when the Moon is on or near it.

Elongation—The distance of a Planet from the Sun as seen from the Earth.

Equinoctial—The circle in the heavens traced by the Earth's Equator.

Node—That part of the orbit of a heavenly body which intercepts the Ecliptic. If the body is passing from south to north, it is called the Ascending Node; if from north to south, Descending.

Opposition—A Planet with the Earth directly between it and the Sun is said to be in opposition to the Sun.

Penumbra—That portion of space around the shadow of the Earth, in passing through which the Moon diminishes in brightness in consequence of a part only of the Sun's rays reaching her surface.

Perigee—That part of the Moon's Orbit nearest to the Earth.

Perihelion—That part of the Planet's Orbit nearest to the Sun.

Quadrature—Two heavenly bodies are said to be in Quadrature when they are distant from each other by one-fourth of the Zodiac, or three signs apart.

The Sun's Declination and fast or slow of clock are given for apparent noon or time of passing the Meridian of St. John.

The Moon's Southing is given in Astronomical time for the Meridian passage at St. John; and her Declination, when on the Meridian.

The Rising of the Moon is given from Full Moon to New Moon; and the Setting from New Moon to Full Moon.

TIDES.

The Tides in the Calendar are the Morning and Afternoon Tides at St. John and Charlottetown. In the Tide Table (page 43) will be found Constants for finding the time of High Water at each of the places given in the table.

E. G. SCOVIL, 62 Union Street, St. John, N. B. Extra Value in Teas.

GO TO BURNHAM'S FURNITURE WAREROOMS FOR

In editions of this Almanac prior to 1885 the Tides were only given approximately, but ever since they have been corrected for the varying distance of the Moon from the Earth, and also her angular distance from the Sun. They can now be depended on as accurate to at least the same degree as the Admiralty Tide Tables.

It will sometimes be found that when a Constant is added to the time of High Water at the Port of reference the sum exceeds 12 hours; in this case subtract 12 hours from the sum and the remainder will be time of High Water at the required Port on the succeeding afternoon or morning, according as the Tide at Port of reference was a Morning or Afternoon Tide.

EXAMPLE.

| | |
|---|--------------|
| High Water at St. John, January 16th..... | 11h. 37m. A. |
| Moncton, add..... | 54 |
| | 12h. 31m. |
| Subtract..... | 12 |
| High Water at Moncton, January 17th..... | 0h. 31m. M. |

It will sometimes be found that a Constant to be subtracted is greater than the time of High Water at the Port of Reference; in this case add 12 hours to the Time at the Port, subtract the Constant, and the remainder will be time of High Water at the required place for the previous Morning or Afternoon, according as the Tide at the Port of reference was an Afternoon or Morning Tide

EXAMPLE.

FORECASTING THE WEATHER.

Men have, from a very early period, studied the weather, on account of its great influence on their pursuits, in order if possible to predict its nature, and prevent those losses to the Farmer and the Sailor which result from violent storms.

The earlier students based their predictions on the phases of the moon, but an examination of the Greenwich observations for more than half a century has shown that this theory is entirely unfounded. Weather prophets like Moore, Zadkiel and Vennor claim in their Almanacs to be able to forecast the weather day by day for a whole year; but meteorological science in the British Isles, and the Signal Service of the United States, with the Weather Bureau of the Dominion, does not claim to forecast, with any certainty, the weather for more than three or four days at the most.

If an observer could obtain, at regular and repeated intervals, readings of the Barometer at stations distributed over a large area, he would be enabled to trace the march of the storm, for it has been found that the wind always blows towards the place of the lowest barometer reading; and so, by means of the telegraph, he may warn those places the storm is approaching. Still, mistakes are often made, and the forecasts are not always infallible, so that much remains to be done before meteorology can be ranked among the exact sciences.

County Courts.

The Courts were established by 30th Victoria, cap. 10, passed June 17, 1867, and are now regulated by the Consolidated Statutes, cap. 51, as amended by Act 45 Vic, c 9, and subsequent Acts. The Act 45 Vic, c 9, authorizes the appointment of one Judge for the Counties of Charlotte, Carleton, Victoria and Madawaska; one Judge for the Counties of York, Sunbury and Queens; one Judge for the Counties of Westmorland and Kent; one Judge for the Counties of Northumberland, Gloucester and Restigouche; one Judge for the Counties of Kings and Albert; and one Judge for the County of the City and County of St. John; provided that Court for the City and County of St. John

JAMES KELLY, 5 MARKET SQUARE, ST. JOHN, N. B.

THE SAINT JOHN BUSINESS AND SHORT-HAND INSTITUTE

shall not have or exercise any jurisdiction in any cause in which the City Court of St. John has jurisdiction.

The act also authorizes the appointment of a Clerk for each Court, who shall be an Attorney. * The sittings of the respective Courts shall be held at or near the County Court House in the shire town.

The County Courts have not cognizances of any action—

1st. When the title to land is brought in question; or

2nd. In which the validity of any devise, bequest, or limitation is disputed.

Subject to the above exceptions, the County Courts have, by Act 45 Vict, c 9, jurisdiction, and may hold pleas in all personal actions of debt, covenant and assumpsit, when the debt or damages do not exceed the sum of \$400; and in all actions of tort, when the damages claimed do not exceed the sum of \$200; and in actions on bonds given to a Sheriff or otherwise in any case in a County Court, whatever may be the penalty or amount sought to be recovered.

The Act 45 Vict, c 9, would seem to give the County Courts jurisdiction in same classes of cases which were excepted from its jurisdiction by the Consolidated Statutes, c 51, sec. 7.

Sittings of the County Courts.

The Courts hold Term every year in each County, which Terms commence as follows;

Albert County—On the fourth Tuesday in June, and on the second Tuesday in November.

Charlotte County—On the second Tuesday in June, and the fourth Tuesday in February and October.

171 Charlotte Street, SAINT JOHN, N. B.

Canada, must be prepaid by postage stamp at the rate of *one cent* per 4 ounces weight, properly labelled, and put up in such a manner as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, not being actually trade patterns or samples, are not admissible as such.

Patterns and Samples for the United States, 1 cent per 2 oz., the initial prepayment being 2c. Limit of weight, 8 oz.

Packets of Patterns or Samples, addressed to any place in Canada, can be registered on affixing thereto registration stamps of the value of 5 cents, in addition to postage stamps representing ordinary postage rate, provided such packets be presented for registration.

The limit of weight to Great Britain is 12 ounces, and to Newfoundland and all countries in Europe *eight ounces*—postage 2 cents for the first 4 ounces, and 1 cent for every additional 2 ounces.

No article liable to Customs duty can be sent as a sample or pattern to a Postal Union country.

FOURTH CLASS MATTER.

Parcels.—Closed parcels for places in Canada must be prepaid 6 cents per 4 oz. They must not exceed 5 lbs. in weight nor 2 feet in length by 1 foot in width or depth, and the sender's name should be written on the lower left hand corner. They may be registered for a fee of 5 cents.

FIFTH CLASS MATTER.

Comprises such articles of general merchandise as are not entitled to any lower rate of postage. Postage 1 cent per oz. or fraction of an ounce. Limit

of weight, 5 lbs.; size, 2 feet in length by 1 foot in width or depth. Matter claiming to be 5th Class *must be open to inspection*, and there must be no correspondence enclosed. Packages of 5th Class Matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to Customs inspection and collection of duty in the United States. Sealed tins, containing fish, lobsters, vegetables, meats, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents, may be sent as 5th Class matter within the Dominion, but no sealed matter can be forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as 5th Class if put up in accordance with the ruling referring to such articles in the Canada Postal Guide for 1889, page xv.

Electrotype blocks are considered Fifth Class Mail Matter.

Registration.

All classes of matter addressed to places in Canada, the United States, Newfoundland, Great Britain, or any Postal Union country, may be registered for a fee of 5 cents for each article in addition to the postage; and letters may be registered to most of the countries not included in the Union. Registered articles should be prepaid.

Every article intended for registration must be handed in at the wicket, and a receipt obtained therefor; on no account must it be dropped into a letter box. The registration fee should be paid by registration stamp.

The sender of a registered article addressed to any Postal Union country may entitle himself to a certificate as to the disposal of said article by the Postmaster at the office addressed, on prepayment of an additional fee of 5 cents.

Registration stamps cannot be accepted in prepayment of postage.

Re-Directed Letters.—Letters re-directed to places in Canada and the United States, *without being taken out of the Post Office*, are not liable to any additional postage.

RESIDENCE OVER WAREROOMS.

Letters sent to or received from a country of the Postal Union, and afterwards re-directed to any place in Canada, or to a country in the Postal Union, will be forwarded even if taken out of the office and re-addressed; but if re-addressed to a place where there is a higher rate of postage, the difference of postage will be chargeable.

Matter which Cannot be Forwarded Through the Post.—Any explosive substance, glass, liquid, or other matter likely to entail risk or injury to the ordinary contents of the mail, will be sent to the Dead Letter Office, Ottawa.

Spectacles and eye-glasses, if securely put in cases not likely to allow the contents to escape if broken in course of conveyance, may be sent by Post within the Dominion on prepayment of parcel post rates.

Letters containing gold or silver money, jewels, or precious articles, or anything liable to Customs duties, cannot be forwarded by post to any of the Postal Union countries except the United States.

Important.—A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer, or to any other person.

Sale of Postage Stamps.—Any person, other than a postmaster, who engages in the sale of Postage Stamps or Stamped Envelopes, without being duly licensed by the Postmaster General, is liable, on conviction before a Justice of the Peace, to a penalty of \$40 for each offence.

Request Letters.—Unregistered letters from places in Canada, Newfoundland and the United States, enclosed in envelopes having *printed thereon* a REQUEST that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested, if not delivered at the time stated.

Useful Hints.

Never send money or other articles of value through the Post Office except either by Money Order or Registered Letter.

Make complaints and inquiries in writing.

Envelopes closed and simply clipped at the ends cannot be forwarded by Book Post.

JAMES KELLY, 5 MARKET SQUARE, ST. JOHN, N. B.

JOSEPH THOMPSON, Practical Machinist, 53 Smythe Street, St. John, N. B.

Affix stamps securely, and on the upper right hand corner.

Register all valuable letters.

Send money by Money Order whenever practicable.

Preserve and request correspondents to preserve envelopes of missent or delayed letters.

Business men should be careful to authorize but a limited number of persons to receive their letters, and only those in whom they have full confidence.

Have a letter box on the door of residence and office.

Letters addressed to mere initials, or fictitious names, will not be delivered, unless addressed in care of a resident, or to some box in the Post Office.

Mutilated Stamps.

Letters having mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not, will be sent to the Postmaster General for his adjudication.

Post Bands and Stamped Envelopes.

One cent post bands for newspaper or book packet wrappers, and one and three cent stamped envelopes are issued by the Department, and may be had at the stamp vendors at a trifle above their face value.

Merchants' Boxes.

Rent of small box \$4, and of large box \$6 a year.

Though every effort will be made in sorting letters to place them in the boxes, when the party addressed is known to have a box, the Postmaster does not hold himself responsible for this always being done, the primary rule being that all letters bearing the number of the house and name of street go there by letter carrier.

An order to place in a box letters belonging to another person than the owner of the box cannot be recognized unless such letters are addressed to the care of the box or its owner.

Letters for the member of a firm should be addressed to the care of a firm or the number of the box.

Box holders would facilitate the work of sorting by requesting correspondents to add the box number to the address of their letters.

St. John Letter Carriers' Delivery.

Letters and Papers for this delivery should be addressed to Street and Number.

Change of Residence should be promptly notified to the Postmaster in writing.

Two deliveries daily, commencing at 8 a. m. and 3.45 p. m.

All letters mailed at the St. John Post Office within fifteen minutes of the hour fixed for morning and evening deliveries will be dispatched by such deliveries.

Letters not bearing the name and number of street, addressed to parties whose address may be known to the Carriers, will be delivered by them. It is always best, however, to have name of street and number of house supplied.

All empty packages to pay half the rates of full packages, and on all goods, wares and merchandise not hereinbefore enumerated and rated, to pay at the rate of twenty cents per ton, weight or measurement, at the option of the collector, lessee, or proprietors of the wharf whereon the goods may be placed.

Time Ball, Post Office Building.

The Ball will be hoisted half its elevation each day (Sunday excepted) at fifteen minutes before one o'clock. At one minute before one o'clock it will be hoisted its full height; and at one o'clock, mean time, the Ball will be dropped. A chronometer keeping correct Greenwich time should then show 5h 24m 16s, and the difference between this and the time shown by a chronometer is its true error on Greenwich time at the moment. As the above hour of one o'clock when the Ball drops, represents 5h 24m 16s at Greenwich, the error of a chronometer may be ascertained, no matter where the ship is lying. Masters of vessels arriving at Saint John should compare their chronometers by the Time Ball, as it will enable them to get the sea rate, which frequently varies from harbor rates. Latitude 45° 16' 42" North. Longitude in time 4h 24m 16s West of Greenwich. D. LEAVITT HUTCHINSON, *Director*.

P. S.—Any shipmasters entering this Port, keeping a Meteorological Register, who may be desirous of having the accuracy of their barometers verified, can do so by comparison with the standard at the Observatory. D. L. H.

Synopsis of the Fishery Laws of the Dominion of Canada as regards Salmon and Trout.

Net fishing of any kind is prohibited in public waters, except under leases or license from the Department of Fisheries.

R. B. HUMPHREY, HARD and SOFT COAL, 29 Smythe Street. Telephone 250.

P. A. SMITH, FISH OF ALL KINDS, OYSTERS AND CLAMS,

The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays.

The netting of trout is prohibited. A general weekly close-time is provided in addition to special close-seasons. Salmon nets must be raised from 6 p. m. on Saturday to 6 a. m. on Monday, and angling for salmon is prohibited from 9 p. m. on Saturday to 6 a. m. on Monday. Close time for "fly-fishing" for salmon begins 15th August.

The use of explosive or poisonous substances for catching or killing fish is illegal.

(Notice has been given that a standard regulation salmon net will be established and adopted by the Department of Fisheries, to come into use in the year 1891, and therefore no other net will be sanctioned for the capture of salmon in any of the waters of the Bay Chaleur or elsewhere).
